Happy Holidays

Wishing you a wonderful Festive Season and a Happy New Year!

CANNT 2015 Call for Abstracts!

Abstracts are currently being accepted for ORAL and POSTER presentations for CANNT 2015 - "**REACHING NEW HEIGHTS**". This annual, national meeting of the Canadian Association of Nephrology Nurses and Technologists will be held **October 22-24, 2015 in Vancouver, British Columbia**. The conference venue is the **Hyatt Regency Hotel**. CANNT 2015 abstract submission should demonstrate "Reaching New Heights through innovation and excellence in nephrology and technology" - appropriate for the novice through to the advanced practice professional. Topics of interest may include: clinical research, innovative projects and solutions, ethics, case presentations and clinical reviews. All abstract submissions

must be evidence-based. Please consult the list of leading edge topics for possible areas of interest.

[Please click here for more information.](#)

Only COMPLETE submissions received by Sunday, February 1, 2015 will be considered.

CANNT National Standards

The Nephrology Nursing Standards and Practice Recommendations help to ensure competent, ethical nephrology nursing care. They highlight the uniqueness and diversity of nephrology nursing practice across Canada and promote excellence in practice.

Marsha Wood BN, RN, MN, C Neph(C)

"...the CANNT standards of practice were very helpful at guiding our units practice around medication reconciliation and nurses responsibilities for patient teaching..."

Nancy Filteau RN, CNeph(C), BScN, MSc(A)

Spiral bound copies can be ordered from CANNT National Office for \$20 plus \$5 shipping and HST. To order your copy, please fill in this [form](#).

Click [here](#) to watch a short video about the standards.

CANNT Members can print their own copy from the website.

Click [here](#) for English/French versions.

Non-members can view the standards.

National Survey

The Principal Investigators need your help in determining the research priorities for patients with kidney disease in Canada.

In this national survey, they are asking people with kidney disease (estimated kidney function < 45%, not on dialysis or with a prior transplant), their care providers and the clinicians and policy-makers involved in their care to share their ideas about the research they think is needed to help improve the management and quality of life of people with kidney disease.

The Principal Investigators are asking you to:

1. Complete a short survey
<http://fluidsurveys.com/s/jla-ckd/>
2. Forward this email to your colleagues involved in any aspect of kidney disease
3. Encourage patients with kidney disease to complete the survey

All responses will be anonymous. They value your contribution & hope that you will share your ideas with them!

CANNT 2014 Conference
