

September 2017

Dear CANNT Members,

With September starting, the official countdown to our CANNT conference in beautiful Halifax, Nova Scotia is on! This month, I interviewed a young long term dialysis patient to get to know her perspective. She has had renal disease since childhood and has had previous transplants, so has received care in many settings within the renal continuum. She has given me permission to use her name, but I have taken out some identifiers just to keep things classy! Meet Jana Sadler from Vancouver, BC! My questions are numbered and her responses follow her name in blue! Thank you very much, Jana for sharing your story with us. Your courage and resilience are amazing!

Michael West

Conference Objectives

1. To encourage camaraderie and networking on a national basis.
2. To provide current information in the specialty of nephrology.
3. To encourage the exchange of clinical, research and technological information.
4. To provide delegates with the opportunity to experience what is new and upcoming in both medical devices and pharmacology.
5. To promote membership in CANNT.
6. To participate in the planning and future direction of CANNT.
