Are you a Registered Nurse with hemodialysis training looking for flexible working options? Are you interested in working in a state-of-art facility with a close knit team of health professionals? Then the Registered Nurse Dialysis (Relief or 2-year Term positions available) may be the position you're looking for. Apply today! <https://www.gov.nt.ca/careers/en/job/21760>

Why the Northwest Territories?

Located above the 60th parallel, the Northwest Territories awaits with seemingly endless lakes and unmatched vistas. The opportunities available in our communities are perfect for the outdoors enthusiast looking for adventure, a healthy work/life balance, and an escape from the hustle of the big city.

On the shores of Great Slave Lake lies the city of [Yellowknife](#) (population 19,600), located in [Chief Drygeese traditional territory](#). The 'urban' centre of the territory, the Northwest Territories' capital city boasts many of the amenities of a big city, while maintaining its [small town charm](#), with outdoor wilderness adventures just minutes away. Whether you want to catch the latest plays at the Northern Arts and Cultural Centre, take in one of our many music and cultural festivals, enjoy delicious dining opportunities ranging from Korean to Ethiopian food to our summer farmer's market, or explore the surrounding environment by snowmobile, skis, boat, or float-plane, Yellowknife has something for everyone.

About the Work

The Registered Nurse, Dialysis (RN), provides advanced nursing care to patients to ensure that the patients' physical, emotional, psycho-social, spiritual and educational needs are met. As part of a nursing team, the RN provides care to inpatients and outpatients receiving treatment for renal disease (i.e. hemodialysis, change an artificial kidney, etc.) as well as counselling and educating those at risk.

When necessary, the RN will contact a specialist, southern hospitals and or transplant labs to address out of the ordinary complications. As a result, this position makes independent day-to-day decisions regarding individual nursing care plans based on standing orders.

The RN works Mondays to Saturday, 12-hour shifts, to provide direct nursing care (hemodialysis) to patients who require three, four-hour treatments per week. The days per week and hours of work may be adjusted to accommodate an increase or decrease in the number of patients or other unusual occurrences. The Dialysis Unit can support 20 patients receiving dialysis within the unit on 6 dialysis machines.

Two positions, a relief positions and a 2-year term, are currently available in Yellowknife, Northwest

Territories.

These positions typically require a Bachelor's Degree in Nursing along with hemodialysis training from a hospital approved course, plus one (1) year of directly related experience in a healthcare setting.

What are the Benefits?

In addition to highly competitive salaries, the Northwest Territories offers a Northern Living Allowance (\$3,700 for community), health and dental benefits, a generous pension plan, and outstanding leave benefits including deferred leave options. On top of that, we offer relocation assistance, along with professional development opportunities and education support. Our graduate nurses are also typically eligible for student loan forgiveness through Canada's Loan Forgiveness program.
