

I would like your approval to attend the CANNT (Canadian Association of Nephrology Nurses and Technologists) Annual Conference, October 26-28, 2023, in Charlottetown, PEI. I have reviewed the agenda, speakers, as well as the list of exhibiting companies, and feel the return on investment would be a major benefit, as the event aligns directly to the priorities of our department.

It is an extraordinary value for the level of intensive education. In 3 days, I'll have access to:

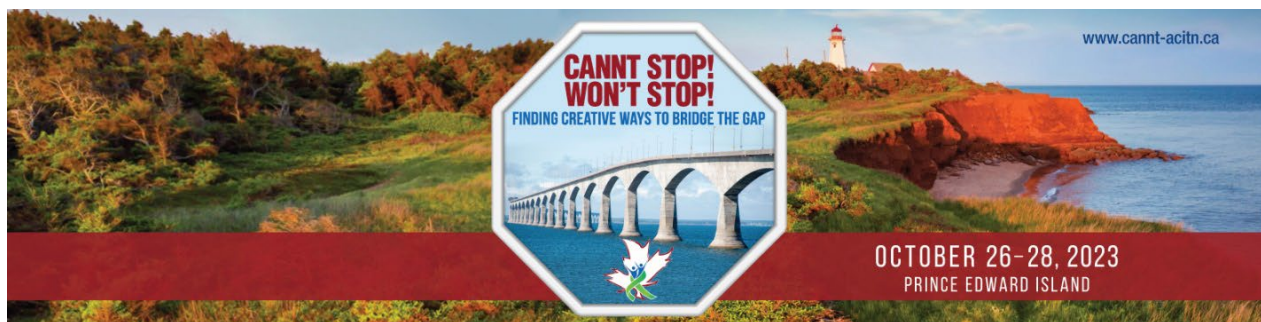

- Information and ideas that will help demonstrate to our patients our commitment to staying informed and knowledgeable of important issues and procedures.
- 3 days for networking opportunities with industry professionals, including: registered nurses, technologists, doctors, pharmacists and dietitians.
- Up to 32 in-depth sessions on various topics including Peritoneal Dialysis Therapy, helping you manage multiple patients, Water system contamination, Critical incident during dialysis treatment, post-Transplant outcomes in kidney transplant recipients, Utilizing artificial intelligence to predict admission risk among in-center hemodialysis patients, and more.
- 7 hours of plenary sessions led by industry thought leaders addressing best practices on topics including Calciphylaxis, Living Kidney Donation, Ethics, a Patient Empowerment Panel, and more!

Upon my return, I will share many of the new ideas and key takeaways with the team to help grow our success.

To support your decision, I've included a couple of documents for your review. There is a features and benefits chart that specifically targets our current needs and how attending this event can help provide answers for our objectives, and a breakdown of approximate costs to attend the conference.

Please accept this proposal to attend as I am confident in the significant return we will receive for the small investment.

Thank you for your consideration.

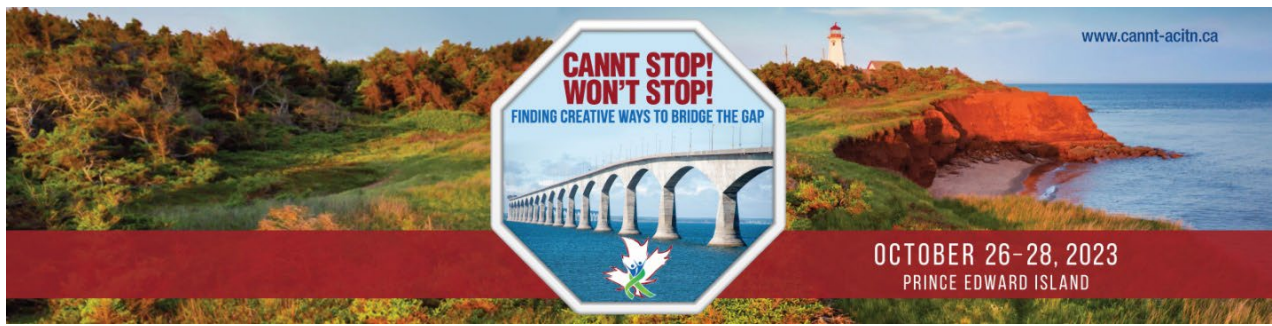

FEATURES AND BENEFITS OF ATTENDING CANNT 2023

The conference agenda at <https://cannt-acitn.ca/2023-program/> demonstrates the scope of information the CANNT 2023 Annual Conference will address.

I will also be able to build new relationships and share best practices with other attendees working on the same priorities. This conference will have comprehensive and unbiased dialogues and far-reaching discussions among peers from all aspects of the nephrology industry, moderated by industry leaders on topics relevant to our priorities.
